

Product Catalogue

EXIN Medical Technology Company has pioneered a number of medical advances covering Respiratory, Anesthesia, Airway, Emergency Management and Breathing Circuit System products.

EXIN is not only the manufacturer, but also the solution provider of full range of medical devices. We focus on the innovation and integrate whole system which categorizes five fields, respiratory, anesthesia, airway management, emergency, and breathing circuit system. All products we supply meet the requirement of ISO and EN standards.

Innovation, Commitment, Specialty and Passion are EXIN's core values.

We take the end user's intention as the first consideration to promote the product and innovation in the market. To present our specialty on product and service to keep the commitment to our customers. Also supply the solution to optimize the field of medical management. Our passion inspires us to meet the end users and market's need more closely.

We always bring personality and humanity to our customer relationship, and this energy and attention to service equally show in the visual image of our company. EXIN is the supplier you can count on and nothing we do is left to chance. We want to touch every individual and business that comes into contact with us, both through our products and our people.

Exceptional, Innovative
This is EXIN.

CONTENT

Emergency Management

The devices of this category provide a line of emergency medical supply and equipment needs of EMS.

06

Airway Management

This category maintains the patient airway in pre-hospital operation or emergency care, and has a wide selection of products in the area of airway management.

16

Respiratory Management

Different segments for the products of oxygen therapy, aerosol therapy and critical care provide the support of respiratory care.

24

Anesthesia Management

To provide the disposable classic cushion mask, reusable silicone mask and other accessories to fulfill the different requirements of anesthesia field.

34

Breathing Circuit System

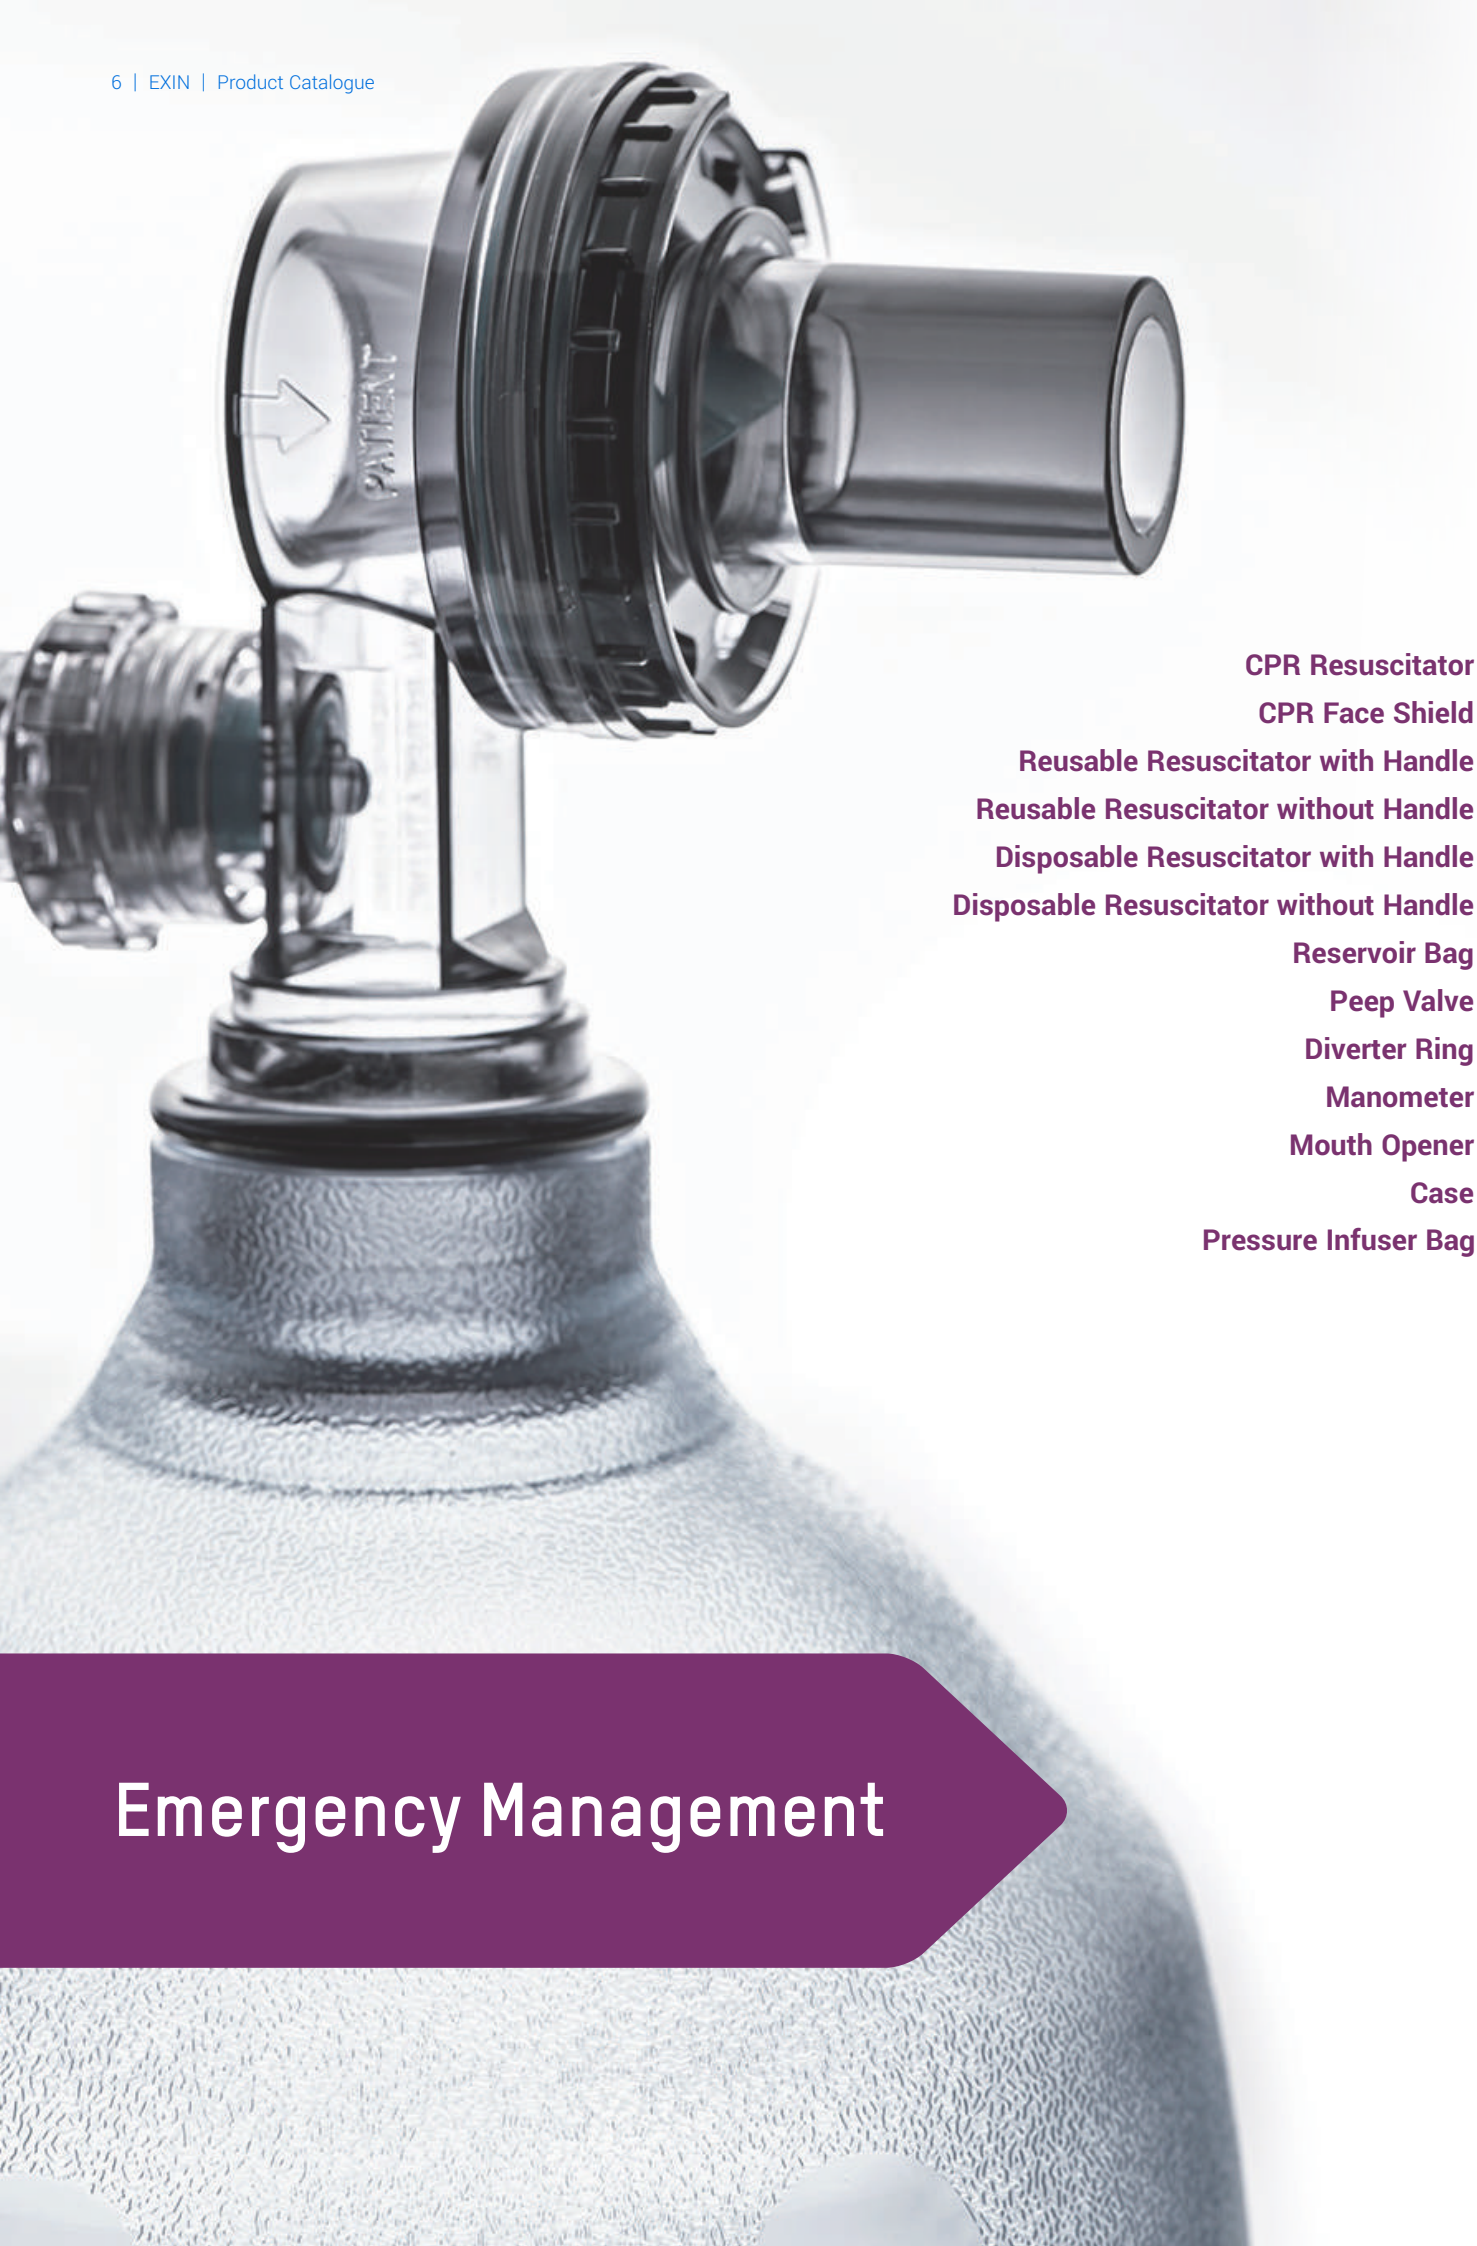

We offer the pre-assembled anesthesia and breathing circuit systems to meet individual needs, also supply the components for selection.

42

Future Perspective

Innovation, Commitment, Specialty and Passion are EXIN's core values.

Emergency Management

CPR Resuscitator

- CPR mask is foldable and ready-to-use
- For use on adult and child both, infant mask is optional
- High efficiency one-way valve ensures the safe resuscitation and avoids cross contamination
- 15mm OD connector can be attached to a manual resuscitator
- Accessories (optional): Polyvinyl Chloride glove (latex free), two-in-one filter, oxygen tube, belt clipper, mouth opener, bag or case, antiseptic wipe

Item Code	Product Description	Size
141201	CPR resuscitator (hard case)	Small
141203	CPR resuscitator (hard case)	Large
141205	CPR resuscitator (hard case)	Extra Large
141202	CPR resuscitator with belt clipper (hard case)	Small
141204	CPR resuscitator with belt clipper (hard case)	Large
141206	CPR resuscitator with belt clipper (hard case)	Extra Large
141207	CPR resuscitator (nylon bag)	Normal

CPR Face Shield

- CPR face shield provides the protection for the rescuer while performing CPR
- A bite block and 3M filter to enhance safe resuscitation
- Semi-transparent face shield allows visualization of patient

Item Code	Product Description
141101	CPR face shield with bite (key chain ball)
141102	CPR face shield with bite (nylon bag)
141103	CPR face shield with mouth-piece
141104	CPR face shield with pad (without mouth-piece)

Reusable Resuscitator with Handle

- Elastic material
- Textured surface of BVM bag for easy holding
- Handle design provides the stable operation with single hand
- Easy to disassemble for cleaning
- Autoclaved and reusable

Item Code	Product Description	Size	Pop-off	Mask	Reservoir Bag	Oxygen Tube
143321	Silicone resuscitator with handle	Infant	40cm H2O	Silicone Mask #1	600ml	2.1m
143322	Silicone resuscitator with handle	Child	40cm H2O	Two-Pieces Mask #3	1000ml	2.1m
143324	Silicone resuscitator with handle	Adult	60cm H2O	Two-Pieces Mask #5	1000ml	2.1m

Disposable Resuscitator with Handle

- Elastic material
- Textured surface of BVM bag for easy holding
- Handle design provides the stable operation with single hand

Item Code	Product Description	Size	Pop-off	Mask	Reservoir Bag	Oxygen Tube
143221	Disposable resuscitator with handle	Infant	40cm H2O	Classic Mask #1	600ml	2.1m
143222	Disposable resuscitator with handle	Child	40cm H2O	Classic Mask #3	1000ml	2.1m
143224	Disposable resuscitator with handle	Adult	60cm H2O	Classic Mask #5	1000ml	2.1m

Reusable Resuscitator without Handle

- Elastic material
- Textured surface of BVM bag for easy holding
- Easy to disassemble for cleaning
- Autoclaved and reusable

Item Code	Product Description	Size	Pop-off	Mask	Reservoir Bag	Oxygen Tube
143305	Silicone resuscitator without handle	Infant	40cm H2O	Silicone Mask #1	600ml	2.1m
143306	Silicone resuscitator without handle	Child	40cm H2O	Two-Pieces Mask #3	1000ml	2.1m
143308	Silicone resuscitator without handle	Adult	60cm H2O	Two-Pieces Mask #5	1000ml	2.1m

Disposable Resuscitator without Handle

- Elastic material
- Textured surface of BVM bag for easy holding

Item Code	Product Description	Size	Pop-off	Mask	Reservoir Bag	Oxygen Tube
143121	Disposable resuscitator without handle	Infant	40cm H2O	Classic Mask #1	600ml	2.1m
143122	Disposable resuscitator without handle	Child	40cm H2O	Classic Mask #3	1000ml	2.1m
143124	Disposable resuscitator without handle	Adult	60cm H2O	Classic Mask #5	1000ml	2.1m

Disposable Resuscitator with Handle

- Elastic material
- Textured surface of BVM bag for easy holding
- Handle design provides the stable operation with single hand

Item Code	Product Description	Size	Pop-off	Mask	Reservoir Bag	Oxygen Tube
143521	Disposable resuscitator with handle	Infant	40cm H2O	Classic Mask #1	600ml	2.1m
143522	Disposable resuscitator with handle	Child	40cm H2O	Classic Mask #3	1000ml	2.1m
143524	Disposable resuscitator with handle	Adult	60cm H2O	Classic Mask #5	1000ml	2.1m

Reservoir Bag

- Available in two types of connectors
- Designed to attach to manual resuscitator system

Item Code	Product Description	Size	Spec.
143861	Reservoir bag	600ml	2-way valve
143862	Reservoir bag	1000ml	2-way valve
143863	Reservoir bag	2500ml	2-way valve
143851	Reservoir bag	600ml	all-in-one valve
143852	Reservoir bag	1000ml	all-in-one valve
143853	Reservoir bag	2500ml	all-in-one valve

Reusable Resuscitator with Handle

- Elastic material
- Textured surface of BVM bag for easy holding
- Handle design provides the stable operation with single hand
- Easy to disassemble for cleaning
- Autoclaved and reusable

Item Code	Product Description	Size	Pop-off	Mask	Reservoir Bag	Oxygen Tube
143421	Silicone resuscitator with handle	Infant	40cm H2O	Silicone Mask #1	600ml	2.1m
143422	Silicone resuscitator with handle	Child	40cm H2O	Two-Pieces Mask #3	1000ml	2.1m
143424	Silicone resuscitator with handle	Adult	60cm H2O	Two-Pieces Mask #5	1000ml	2.1m

Diverter Ring

- PC or PSF material provided

Item Code	Product Description	Material
143831	Diverter ring	PC
143832	Diverter ring	PSF

Peep Valve

- Available in two types of cm H2O with options for 20mm OD or 30mm ID
- PC or PSF material provided

Item Code	Product Description	Material
143811	Peep valve, 0~10 cm H2O, 22mm OD	PC
143812	Peep valve, 5~20 cm H2O, 22mm OD	PC
143813	Peep valve, 0~10 cm H2O, 22mm OD	PSF
143814	Peep valve, 5~20 cm H2O, 22mm OD	PSF
143821	Peep valve, 0~10 cm H2O, 30mm ID	PC
143822	Peep valve, 5~20 cm H2O, 30mm ID	PC
143823	Peep valve, 0~10 cm H2O, 30mm ID	PSF
143824	Peep valve, 5~20 cm H2O, 30mm ID	PSF

Mouth Opener

- Designed to open patient mouth for emergency rescue purpose
- Single patient use

Item Code	Product Description
149101	Mouth opener

Manometer

- To provide visual indication of pressure when the bag is squeezed

Item Code	Product Description
143841	Manometer, 0~60 cm H2O

Case

- Storage case for manual resuscitator system
- Available in two sizes

Item Code	Product Description	Size
143911	Case for Resuscitator	Adult
143912	Case for Resuscitator	Child or Infant

Airway Management

- Soft Guedel Airway
- Slit Guedel Airway
- Rigid Guedel Airway
- Soft Nasal Airway
- Color-coded Berman Airway
- Standard Nasal Airway
- Color-coded Vented Berman Airway
- Eagle-mouth Nasal Airway
- Bougie
- Vented Introducer
- Disposable Laryngoscope Blade (Plastic)

Soft Guedel Airway

- Soft material used
- Ergonomic streamline design
- Smooth and round edge to enhance patient comfort

Item Code	Product Description	ISO Standard Size	Color	
131303	Soft Clear Guedel airway, 3cm	ISO 3	Lilac	
131304	Soft Clear Guedel airway, 4cm	ISO 4	Pink	
131305	Soft Clear Guedel airway, 5cm	ISO 5	Blue	
131306	Soft Clear Guedel airway, 6cm	ISO 6	Black	
131307	Soft Clear Guedel airway, 7cm	ISO 7	White	
131308	Soft Clear Guedel airway, 8cm	ISO 8	Green	
131309	Soft Clear Guedel airway, 9cm	ISO 9	Yellow	
131310	Soft Clear Guedel airway, 10cm	ISO 10	Red	
131312	Soft Clear Guedel airway, 12cm	ISO 12	Purple	

Slit Guedel Airway

- Latex free, use soft material
- Establish gas channel and assist endoscopy
- Excellent design provides patient comfort and safety
- Single use

Item Code	Product Description	ISO Standard Size	Color	
131701	Slit Guedel Airway, 8cm	ISO 8	Green	
131702	Slit Guedel Airway, 9cm	ISO 9	Yellow	
131703	Slit Guedel Airway, 10cm	ISO 10	Red	

Rigid Guedel Airway

- Soft material used
- Ergonomic streamline design
- Smooth and round edge to enhance patient comfort

Item Code	Product Description	ISO Standard Size	Color
131403	Rigid Guedel airway, 3cm	ISO 3	Lilac
131404	Rigid Guedel airway, 4cm	ISO 4	Pink
131405	Rigid Guedel airway, 5cm	ISO 5	Blue
131406	Rigid Guedel airway, 6cm	ISO 6	Black
131407	Rigid Guedel airway, 7cm	ISO 7	White
131408	Rigid Guedel airway, 8cm	ISO 8	Green
131409	Rigid Guedel airway, 9cm	ISO 9	Yellow
131410	Rigid Guedel airway, 10cm	ISO 10	Red
131411	Rigid Guedel airway, 11cm	ISO 11	Orange

Color-coded Berman Airway

- Smooth and round edge to enhance patient comfort
- Open channel at both sides provides the path for suction catheter
- Color-coded for easy identification of size

Item Code	Product Description	ISO Standard Size	Color
131204	Berman airway, 4cm	ISO 4	Pink
131205	Berman airway, 5cm	ISO 5	Blue
131206	Berman airway, 6cm	ISO 6	Black
131207	Berman airway, 7cm	ISO 7	White
131208	Berman airway, 8cm	ISO 8	Green
131209	Berman airway, 9cm	ISO 9	Yellow
131210	Berman airway, 10cm	ISO 10	Red
131211	Berman airway, 11cm	ISO 11	Orange

Soft Nasal Airway

- Use soft and elastic materials
- Excellent design provides patient comfort and safety

Item Code	Product Description	Size
132305	5.0mm ID (20 Fr.) Soft Nasal Airway	5
132355	5.5mm ID (20 Fr.) Soft Nasal Airway	5.5
132306	6.0mm ID (20 Fr.) Soft Nasal Airway	6
132365	6.5mm ID (20 Fr.) Soft Nasal Airway	6.5
132307	7.0mm ID (28 Fr.) Soft Nasal Airway	7

Standard Nasal Airway

- Soft and elastic material used
- EO sterilization is available

Item Code	Product Description	Size
132106	6.0mm Standard Nasal Airway	6
132107	7.0mm Standard Nasal Airway	7
132108	8.0mm Standard Nasal Airway	8
132109	9.0mm Standard Nasal Airway	9

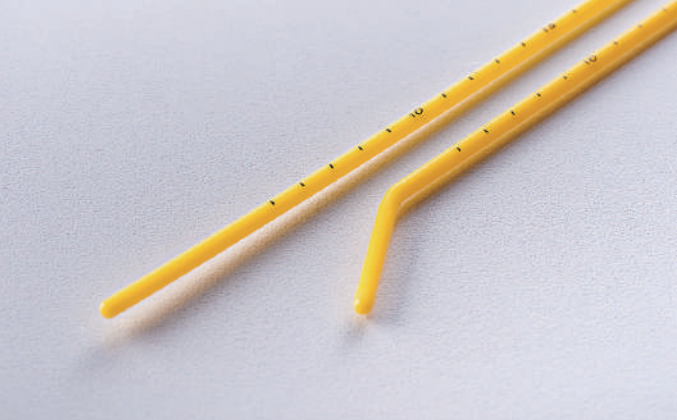

Color-coded Vented Berman Airway

- Smooth and round edge to enhance patient comfort
- Open channel at both sides provides the path for suction catheter
- Vented design allows additional air passage
- Color-coded for easy identification of size

Item Code	Product Description	ISO Standard Size	Color	
131224	Berman airway, 4cm	ISO 4	Pink	
131225	Berman airway, 5cm	ISO 5	Blue	
131226	Berman airway, 6cm	ISO 6	Black	
131227	Berman airway, 7cm	ISO 7	White	
131228	Berman airway, 8cm	ISO 8	Green	
131229	Berman airway, 9cm	ISO 9	Yellow	
131230	Berman airway, 10cm	ISO 10	Red	
131231	Berman airway, 11cm	ISO 11	Orange	

Bougie

- Elastic material used
- Smooth round edge, low-friction surface
- Depth markings to assist proper intubation
- EO sterilization is available

Item Code	Product Description	Spec.	Length	Size
131601	Bougie	5ch	470mm	Pediatric
131611	Bougie (straight)	10ch	600mm	Adult
131612	Bougie (curve)	10ch	600mm	Adult
131613	Bougie (straight)	10ch	800mm	Adult
131614	Bougie (curve)	10ch	800mm	Adult
131621	Bougie (straight)	15ch	600mm	Adult
131622	Bougie (curve)	15ch	600mm	Adult
131623	Bougie (straight)	15ch	800mm	Adult
131624	Bougie (curve)	15ch	800mm	Adult

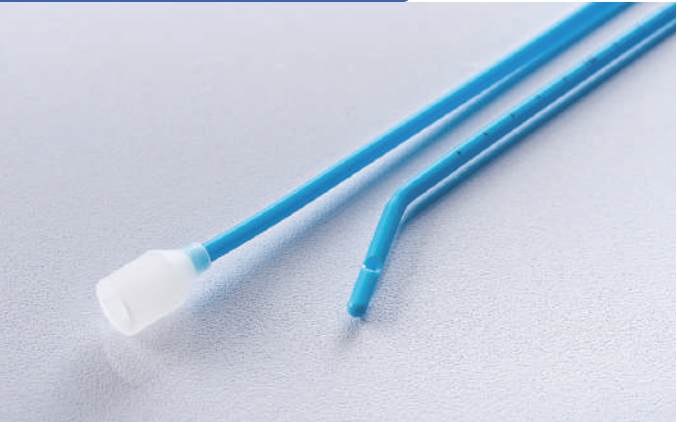

Standard Nasal Airway

- Soft and elastic material
- Unique eagle mouth design
- EO sterilization is available

Item Code	Product Description	Size
132206	6.0mm Eagle-mouth Nasal Airway	6
132207	7.0mm Eagle-mouth Nasal Airway	7
132208	8.0mm Eagle-mouth Nasal Airway	8
132209	9.0mm Eagle-mouth Nasal Airway	9

Vented Introducer

- Elastic material
- Smooth round edge, low-friction surface
- Depth markings to assist proper intubation
- EO sterilization is available

Item Code	Product Description	Spec.	Length
131711	Vented introducer (curve)	10ch	600mm
131721	Vented introducer (curve)	15ch	700mm

Disposable Laryngoscope Blade (Plastic)

- Fiber optics blades
- High impact grade material enhances the performance of blade
- Perfect optimal light source transmission

Item Code	Product Description	Size
131500	Laryngoscope Miller type	0
131501	Laryngoscope Miller type	1
131502	Laryngoscope Macintosh type	2
131503	Laryngoscope Macintosh type	3
131504	Laryngoscope Macintosh type	4

Memo

Respiratory Management

- Venturi Mask
- Aerosol Mask
- Oxygen Mask
- High Concentration Oxygen Mask
- Tracheostomy Mask
- Face Tent
- CPAP Twin-port Mask (Air Cushion)
- CPAP Twin-port Mask (Rotation Cushion)
- Nasal Cannula
- PSG Nasal Cannula
- Diluter Set
- Oxygen Tube
- Bubble Tube
- Nebulizer Kit
- Humidifier
- Oxygen Adapter
- Nose Clip

Venturi Mask

- Friendly soft material used
- To provide the adjustable diluter for multiple selection of oxygen concentration
- Adjustable nose clip provides the stable position on face
- Star lumen design of oxygen tube prevents kinking

Item Code	Product Description	Size
111012	Venturi mask #M (Adjustable diluter 26%~60%, 2.1m oxygen tube)	Child
111013	Venturi mask #L (Adjustable diluter 26%~60%, 2.1m oxygen tube)	Adult

Venturi Mask

- Friendly soft material used
- To provide 6 diluters for different oxygen concentration respectively
- Adjustable nose clip provides the stable position on face
- Star lumen design of oxygen tube prevents kinking

Item Code	Product Description	Size
111015	Venturi mask #M (6 diluters, 2.1m oxygen tube)	Child
111016	Venturi mask #L (6 diluters, 2.1m oxygen tube)	Adult

Aerosol Mask

- Friendly soft material used
- Adjustable nose clip provides the stable position on face
- Star lumen design of oxygen tube prevents kinking

Item Code	Product Description	Size
111051	Aerosol mask #S	Infant
111052	Aerosol mask #M	Child
111053	Aerosol mask #L	Adult
111054	Aerosol mask #S (Jet nebulizer, 2.1m oxygen tube)	Infant
111055	Aerosol mask #M (Jet nebulizer, 2.1m oxygen tube)	Child
111056	Aerosol mask #L (Jet nebulizer, 2.1m oxygen tube)	Adult

Oxygen Mask

- Friendly soft material used
- Adjustable nose clip provides the stable position on face
- Star lumen design of oxygen tube prevents kinking

Item Code	Product Description	Size
111021	Oxygen mask #S	Infant
111022	Oxygen mask #M	Child
111023	Oxygen mask #L	Adult
111024	Oxygen mask #S (2.1m oxygen tube)	Infant
111025	Oxygen mask #M (2.1m oxygen tube)	Child
111026	Oxygen mask #L (2.1m oxygen tube)	Adult

High Concentration Oxygen Mask

- Friendly soft material used
- Adjustable nose clip provides the stable position on face
- Valves on the mask maintains the high concentration oxygen

Item Code	Product Description	Size
111032	High concentration oxygen mask #M	Child
111033	High concentration oxygen mask #L	Adult
111035	High concentration oxygen mask #M (2.1m oxygen tube)	Child
111036	High concentration oxygen mask #L (2.1m oxygen tube)	Adult

Tracheostomy Mask

- Friendly soft material used
- 360° rotation connector is enclosed

Item Code	Product Description	Size
111041	Tracheostomy mask #M, with aerosol adaptor	Child
111042	Tracheostomy mask #L, with aerosol adaptor	Adult
111043	Tracheostomy mask #M, with aerosol + oxygen adaptor	Child
111044	Tracheostomy mask #L, with aerosol + oxygen adaptor	Adult
111045	Tracheostomy mask #M (2.1m oxygen tube)	Child
111046	Tracheostomy mask #L (2.1m oxygen tube)	Adult
111047	Tracheostomy mask #M (6 diluters, 2.1m oxygen tube)	Child
111048	Tracheostomy mask #L (6 diluters, 2.1m oxygen tube)	Adult

CPAP Twin-port Mask (Air Cushion)

- Adjustable cushion volume provides the suitable seal
- One-way valve design to avoid the re-breathing

Item Code	Product Description	Size	Taper Size
111073	CPAP Twin-port Mask (Air Cushion) #3	Small	22mm OD / 30mm OD
111075	CPAP Twin-port Mask (Air Cushion) #5	Medium	22mm OD / 30mm OD
111076	CPAP Twin-port Mask (Air Cushion) #6	Large	22mm OD / 30mm OD

CPAP Twin-port Mask (Rotation Cushion)

- Optional various aroma (Vanilla, Strawberry and Cherry)
- Adjustable cushion volume provides the suitable seal
- One-way valve design to avoid the re-breathing

Item Code	Product Description	Size	Taper Size
111083	CPAP Twin-port Mask (Rotation cushion) #3	Small	22mm OD / 30mm OD
111085	CPAP Twin-port Mask (Rotation cushion) #5	Medium	22mm OD / 30mm OD
111086	CPAP Twin-port Mask (Rotation cushion) #6	Large	22mm OD / 30mm OD

Face Tent

- Friendly soft material used
- Open and loose design specially for the patient with facial trauma or burn

Item Code	Product Description	Size
111061	Face tent mask #L, with aerosol adaptor	Adult
111062	Face tent mask #L, with oxygen adaptor	Adult
111063	Face tent mask #L, with aerosol + oxygen adaptor	Adult
111064	Face tent mask #L, with oxygen adaptor, 2.1m oxygen tube	Adult
111065	Face tent mask #L, with nebulizer bottle, 2.1m oxygen tube	Adult

Oxygen Tube

- Star lumen design of oxygen tube prevents kinking
- Customized length available

Item Code	Product Description
113101	Oxygen tube 2.1m

PSG Nasal Cannula

- To apply on patient examination suffered from sleep apnea
- Luer lock to fit with polysomnography machine
- Soft material provides comfort to the patient

Item Code	Product Description	Length	Size
113231	PSG nasal cannula #M	280mm	Child
113232	PSG nasal cannula #M	500mm	Child
113233	PSG nasal cannula #L	380mm	Adult
113234	PSG nasal cannula #L	800mm	Adult

Nasal Cannula

- Star lumen oxygen tube prevents kinking
- Different types of prongs provide the selection to patient comfort

Item Code	Product Description	Size
113201	Nasal cannula #S with straight prong, 2.1m	Infant
113202	Nasal cannula #M with straight prong, 2.1m	Child
113203	Nasal cannula #L with straight prong, 2.1m	Adult
113212	Nasal cannula #M with curved prong, 2.1m	Child
113213	Nasal cannula #L with curved prong, 2.1m	Adult
113221	Nasal cannula #S with soft prong, 2.1m	Infant
113222	Nasal cannula #M with soft prong, 2.1m	Child
113223	Nasal cannula #L with soft prong, 2.1m	Adult
113224	Nasal cannula #XL with soft prong, 2.1m	Large Adult

Nebulizer Kit

- Light nebulizer generates fine particle for better absorption of medication
- To provide an efficient and cost effective nebulizer solution

Item Code	Product Description
118101	Nebulizer kit (15cm corrugated circuit, T piece, mouth piece, 2.1m oxygen tube)
118102	Nebulizer kit (Angle mouth piece, 2.1m oxygen tube)
118111	Nebulizer bottle 6cc

Bubble Tube

- Different internal diameters to meet various type of equipments
- Customized length available

Item Code	Product Description
113301	Bubble tube 50m

Diluter Set

- Adjustable or fixed diluters provided
- Color-coded for identification, meet the requirements of EN 13544-3

Item Code	Product Description
118202	Adjustable diluter 60% (green)
118203	6 fixed diluter kit, 24%, 28%, 31%, 35%, 40%, 50%
118204	7 fixed diluter kit, 24%, 28%, 31%, 35%, 40%, 50%, 60%

Nose Clip

- Foam padded for patient comfort

Item Code	Product Description
119001	Nose clip

Oxygen Adapter

- Connector for O2 or Air flowmeter

Item Code	Product Description
119002	Oxygen Adaptor (Xmas Tree Adaptor)

Humidifier

- Single patient use for long term durability

Item Code	Product Description
118301	Humidifier 350ml, with 3 PSI audible alarm
118302	Humidifier 350ml, with 6 PSI audible alarm

Humidifier

- Designed to provide high-accuracy delivery of oxygen between 31% to 100%
- Single patient use for long term durability

Item Code	Product Description
118303	Humidifier 350ml, large Volume Nebulizer (FiO2: 31%-100%)

- Classic Cushion Mask without Valve
- Classic Cushion Mask with Valve
- TopFit Mask
- Scented Mask
- Reusable Round Silicone Mask
- Reusable Pyramid Silicone Mask
- Reusable Rendell Baker Silicone Mask
- Reusable Two Piece Silicone Mask
- Head Gear

Anesthesia Management

Scented Mask

- Optional various long lasting aroma (Vanilla, Cherry or Strawberry)
- Light weight of mask to enhance patient comfort
- Minimum dead space
- Front check valve provides the easy adjustment of cushion air volume
- Available in 8 sizes for full range choice

Item Code	Product Description	Size	Taper Size	Color
121050-00	Scented Mask without valve #00	Premature	15M	NA
121050	Scented Mask with valve #0	Neonatal	15M	Blue
121051	Scented Mask with valve #1	Infant	15M	Grey
121052	Scented Mask with valve #2	Pediatric	22F	White
121053	Scented Mask with valve #3	Small Child	22F	Yellow
121054	Scented Mask with valve #4	Medium Adult	22F	Green
121055	Scented Mask with valve #5	Large Adult	22F	Orange
121056	Scented Mask with valve #6	Extra Large Adult	22F	Red

Classic Cushion Mask with Valve

- Transparent top shell provides perfect visibility
- Light weight of mask to enhance patient comfort
- Minimum dead space
- Available in 6 sizes, each mask equipped with color-coded hook ring
- Adjustable cushion volume provides the suitable seal

Item Code	Product Description	Size	Taper Size	Color
121830	Classic cushion mask with valve #0	Neonatal	15M	Blue
121831	Classic cushion mask with valve #1	Infant	15M	Grey
121832	Classic cushion mask with valve #2	Pediatric	22F	White
121833	Classic cushion mask with valve #3	Child	22F	Yellow
121834	Classic cushion mask with valve #4	Small Adult	22F	Green
121835	Classic cushion mask with valve #5	Large Adult	22F	Orange

Classic Cushion Mask without Valve

- Transparent top shell provides perfect visibility
- Light weight of mask to enhance patient comfort
- Minimum dead space
- Available in 6 sizes, each mask equipped with color-coded hook ring

Item Code	Product Description	Size	Taper Size	Color	
121820	Classic cushion mask without valve #0	Neonatal	15M	Blue	●
121821	Classic cushion mask without valve #1	Infant	15M	Grey	●
121822	Classic cushion mask without valve #2	Pediatric	22F	White	●
121823	Classic cushion mask without valve #3	Child	22F	Yellow	●
121824	Classic cushion mask without valve #4	Small Adult	22F	Green	●
121825	Classic cushion mask without valve #5	Large Adult	22F	Orange	●

TopFit Mask

- Transparent top shell provides perfect visibility
- Light weight of mask to enhance patient comfort
- Minimum dead space
- Front check valve provides easy adjustment of cushion air volume

Item Code	Product Description	Size	Taper Size	Color

Inflating Ball

- Suitable for inflation and deflation of airbag masks
- The ring is easy to carry
- Special appearance surface is easy to hold
- Provide customized Logo

Item Code	Description
129001	Inflating Ball

Reusable Round Silicone Mask

- Made with high performance silicone which is with maximum durability; latex free
- High-transparency provides perfect visibility
- Comfort fit and effective seal provided to patient
- Autoclaved and reusable

Item Code	Product Description	Size	Taper Size
121020-00	Round Silicone Mask #00	Premature	15M
121020	Round Silicone Mask #0	Small Infant	15M
121021	Round Silicone Mask #1	Large Infant	15M
121022	Round Silicone Mask #2	Small Child	22F

Reusable Rendell Baker Silicone Mask

- Made with high performance silicone which is with maximum durability; latex free
- High-transparency provides perfect visibility
- Autoclaved and reusable

Item Code	Product Description	Size	Taper Size
121030	Rendell Baker Silicone Mask #0	Neonatal	22F
121031	Rendell Baker Silicone Mask #1	Infant	22F
121032	Rendell Baker Silicone Mask #2	Pediatric	22F
121033	Rendell Baker Silicone Mask #3	Adult	22F

Reusable Pyramid Silicone Mask

- Made with high performance silicone which is with maximum durability; latex free
- High-transparency provides perfect visibility
- Comfort fit and effective seal provided to patient
- Autoclaved and reusable

Item Code	Product Description	Size	Taper Size
121023	Pyramid silicone mask #3	Large Child	22F
121024	Pyramid silicone mask #4	Small Adult	22F
121025	Pyramid silicone mask #5	Large Adult	22F
121026	Pyramid silicone mask #6	Extra Large Adult	22F

Reusable Two Piece Silicone Mask

- Reusable
- High-transparency of top shell and mask body provides perfect visibility

Item Code	Product Description	Size	Taper Size

Breathing Circuit System

22mm Adult Breathing Circuit

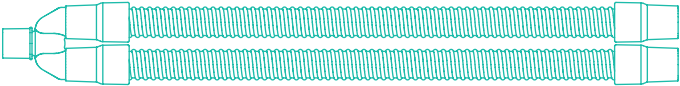

· Adult Standard, Limbs, Y Piece, Elbow + Luer Lock

Item Code	Product Description
151141	150cm Corrugated tube, Y piece
151142	180cm Corrugated tube, Y piece
151144	320cm Corrugated tube, Y piece
151547	180 cm corrugated Tube (Green Tube*1 ,Transparent Tube*1) , Y Piece, Elbow, luer lock ,Tube Holder, Safty Cap,Soft Connector.
151242	180cm Extendable tube, Y piece
151244	320cm Extendable tube, Y piece
151541	150cm Smoothbore tube, Y piece, soft connectors
151542	180cm Smoothbore tube, Y piece, soft connectors
151544	320cm Smoothbore tube, Y piece, soft connectors

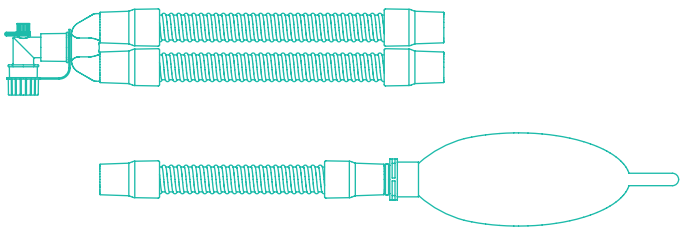

22mm Adult Breathing Circuit with Extra Limb

· Adult Standard, Limbs, Y Piece, Elbow + Luer Lock, Additional Limb

Item Code	Product Description
151145	150cm Corrugated tube, Y piece, Luer Lock, 100cm Additional Limb
151146	180cm Corrugated tube, Y piece, Luer Lock, 120cm Additional Limb
151545	150cm Smoothbore tube, Y Piece, Luer Lock, 100cm Additional Limb, soft connectors
151546	180cm Smoothbore tube, Y Piece, Luer Lock, 120cm Additional Limb, soft connectors

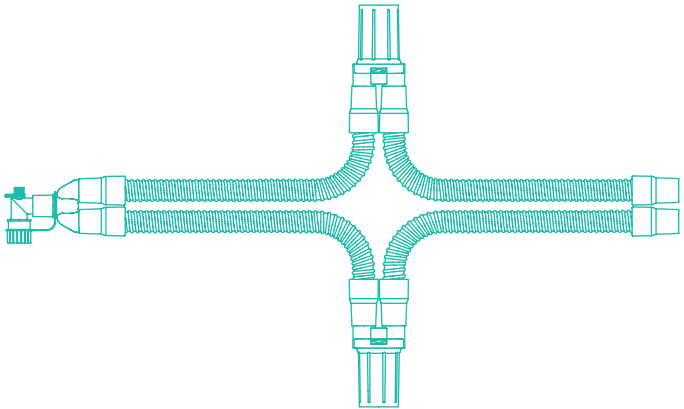

22mm Adult Anesthesia Circuit with Extra Limb & Anesthesia Bag

- Adult Standard, Limbs, Y Piece, Elbow + Luer Lock, Additional Limb & 2 Liter Bag

Item Code	Product Description
151155	150cm Corrugated tube, Y Piece, Luer Lock, 100cm Additional Limb, 2 Liter Bag
151156	180cm Corrugated tube, Y Piece, Luer Lock, 120cm Additional Limb, 2 Liter Bag
151158	320cm Corrugated tube, Y Piece, Luer Lock, 150cm Additional Limb, 2 Liter Bag
151159	150cm Corrugated tube, Y Piece, Luer lock , gas sampling ,3 liter Reservoir bag,Cushion mask without valve #5, BV filter, soft connectors.
151160	150cm Corrugated tube, Y Piece, Luer luck ,Cushion mask without valve #5,3 liter Reservoir bag, BV filter, soft connectors, 100 cm additional Limb Corrugated tube (w/o additional PP connector),
151161	150cm Extendable tube, Y Piece, Luer luck ,Cushion mask without valve #5,3 liter Reservoir bag, BV filter, soft connectors. 100 cm additional Limb (Extendable tube) (w/o additional PP connector)
151256	180cm Extendable tube, Y Piece, Luer Lock, 120cm Additional Limb, 2 Liter Bag
151258	320cm Extendable tube, Y piece, Luer Lock, 150cm Additional Limb, 2 Liter Bag
151555	150cm Smoothbore tube, Y Piece, Luer Lock, 100cm Additional Limb, 2 Liter Bag, soft connectors
151556	180cm Smoothbore tube, Y Piece, Luer Lock, 120cm Additional Limb, 2 Liter Bag, soft connectors

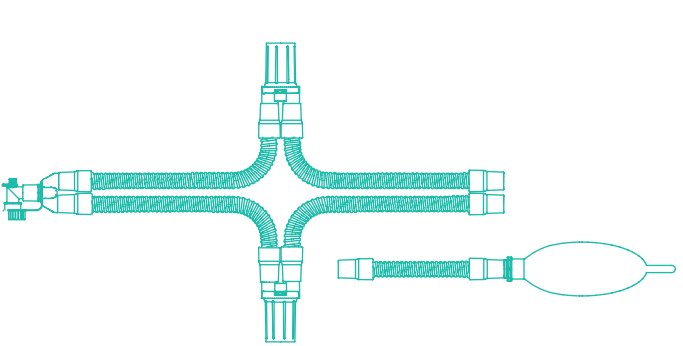

22mm Adult Breathing Circuit with Water Trap

- Adult, Water traps, Limbs, Y Piece, Elbow + Luer Lock

Item Code	Product Description
151165	150cm Corrugated tube, Water trap (2pcs), Y Piece, Luer Lock
151166	180cm Corrugated tube, Water trap (2pcs), Y Piece, Luer Lock
151167	180cm Corrugated Tube*4 (1.2m+0.6m)+water trap(2 pcs) , Y Piece, Elbow, luer lock ,Y connector with Temperature port,Soft Connector,Tube Holder
151168	180cm Corrugated Tube*4 (1.2m+0.6m)+water trap(2pcs) , Y Piece, Elbow, luer lock ,Y connector with Temperature port,Soft Connector,Tube Holder ,1.2 m Additional limb
151565	150cm Smoothbore tube, Water trap (2pcs), Y Piece, Luer Lock, soft connectors
151566	180cm Smoothbore tube, Water trap (2pcs), Y Piece, Luer Lock, soft connectors

22mm Adult Anesthesia Circuit with Water Trap, Extra Limb & Anesthesia Bag

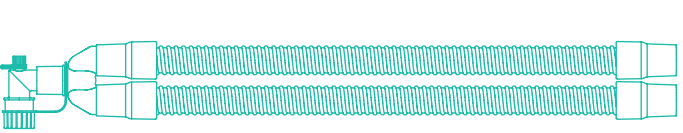

- Adult, Water traps, Limbs, Y Piece, Elbow + Luer Lock, Additional Tubing & 2 Liter Bag

Item Code	Product Description
151175	150cm Corrugated tube, Water trap (2pcs), Y Piece, Luer Lock, 100cm Additional Limb, 2 Liter Bag
151176	180cm Corrugated tube, Water trap (2pcs), Y Piece, Luer Lock, 120cm Additional Limb, 2 Liter Bag
151575	150cm Smoothbore tube, Water trap (2pcs), Y Piece, Luer Lock, 100cm Additional Limb, 2 Liter Bag, soft connectors
151576	180cm Smoothbore tube, Water trap (2pcs), Y Piece, Luer Lock, 120cm Additional Limb, 2 Liter Bag, soft connector

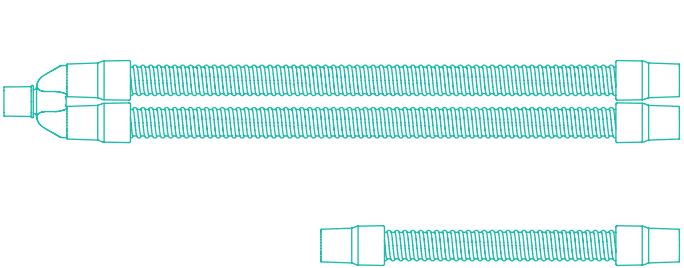

15mm Pediatric Breathing Circuit

- Pediatric Standard, Limbs, Y Piece, Elbow + Luer Lock

Item Code	Product Description
151131	150cm Corrugated tube, Y piece
151132	180cm Corrugated tube, Y piece
151134	320cm Corrugated tube, Y piece
151232	180cm Extendable tube, Y piece
151234	320cm Extendable tube, Y piece
151531	150cm Smoothbore tube, Y piece, soft connectors
151532	180cm Smoothbore tube, Y piece, soft connectors
151534	320cm Smoothbore tube, Y piece, soft connectors

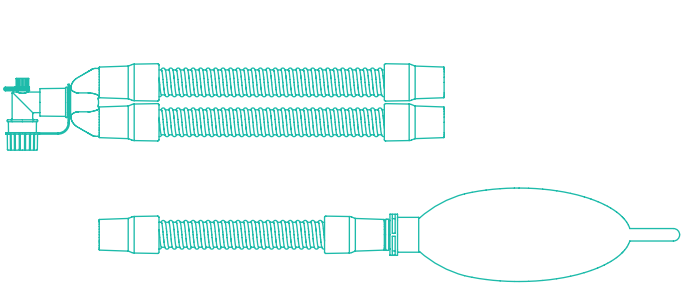

15mm Pediatric Breathing Circuit with Extra Limb

- Pediatric Standard, Limbs, Y Piece, Elbow + Luer Lock, Additional Limb

Item Code	Product Description
151135	150cm Corrugated tube, Y piece, Luer Lock, 100cm Additional Limb
151136	180cm Corrugated tube, Y piece, Luer Lock, 120cm Additional Limb
151535	150cm Smoothbore tube, Y Piece, Luer Lock, 100cm Additional Limb, soft connectors
151536	180cm Smoothbore tube, Y Piece, Luer Lock, 120cm Additional Limb, soft connectors

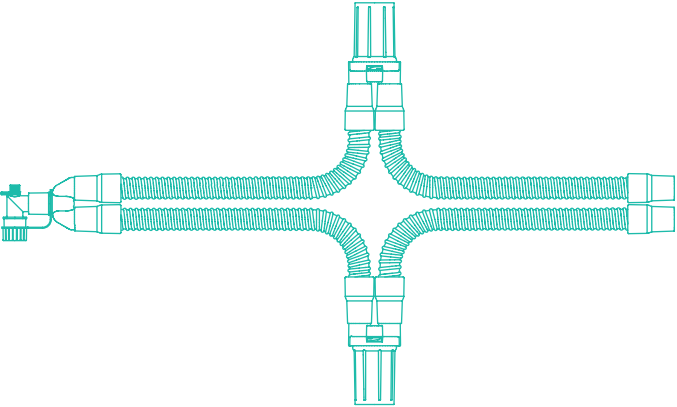

15mm Pediatric Anesthesia Circuit with Extra Limb & Anesthesia Bag

- Pediatric Standard, Limbs, Y Piece, Elbow + Luer Lock, Additional Limb & 1 Liter Bag

Item Code	Product Description
151151	150cm Corrugated tube, Y Piece, Luer Lock, 100cm Additional Limb, 1 Liter bag
151152	180cm Corrugated tube, Y Piece, Luer Lock, 120cm Additional Limb, 1 Liter bag
151252	180cm Extendable tube, Y Piece, Luer Lock, 120cm Additional Limb, 1 Liter bag
151551	150cm Smoothbore tube, Y Piece, Luer Lock, 100cm Additional Limb, 1 Liter bag ,soft connectors
151552	180cm Smoothbore tube, Y Piece, Luer Lock, 120cm Additional Limb, 1 Liter bag, soft connectors
151554	320cm Smoothbore tube, Y Piece, Luer Lock, 150cm Additional Limb, 1 Liter bag, soft connectors

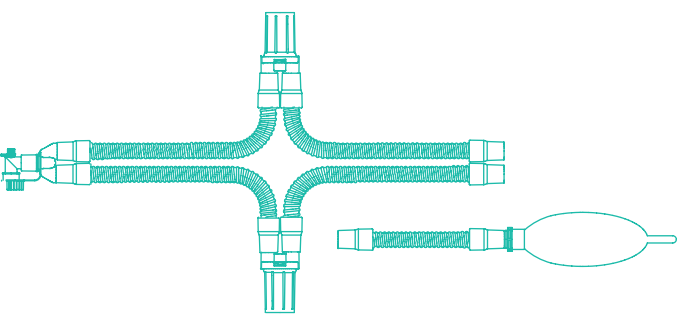

15mm Pediatric Breathing Circuit with Water Trap

- Pediatric, Water traps, Limbs, Y Piece, Elbow + Luer Lock

Item Code	Product Description
151163	150cm Corrugated tube, Water trap (2pcs), Y Piece, Luer Lock
151162	180cm Corrugated tube, Water trap (2pcs), Y Piece, Luer Lock
151561	150cm Smoothbore tube, Water trap (2pcs), Y Piece, Luer Lock, soft connectors
151562	180cm Smoothbore tube, Water trap (2pcs), Y Piece, Luer Lock, soft connectors

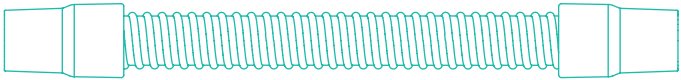

15mm Pediatric Anesthesia Circuit with Water Trap, Extra Limb & Anesthesia Bag

- Pediatric, Water traps, Limbs, Y Piece, Elbow + Luer Lock, Additional Tubing & 1 Liter Bag

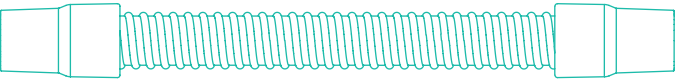

Item Code	Product Description
151171	150cm Corrugated tube, Y Piece, Luer Lock, Water trap (2pcs), 100cm Additional Limb, 1 Liter Bag
151172	180cm Corrugated tube, Y Piece, Luer Lock, Water trap (2pcs), 120cm Additional Limb, 1 Liter Bag
151571	150cm Smoothbore tube, Y Piece, Luer Lock, Water trap (2pcs), 100cm Additional Limb, 1 Liter Bag, soft connectors
151572	180cm Smoothbore tube, Y Piece, Luer Lock, Water trap (2pcs), 120cm Additional Limb, 1 Liter Bag, soft connectors

Adult 22mm Single Tubing

Item Code	Product Description
152121	80cm Corrugated tube, single tube with connectors
152122	120cm Corrugated tube, single tube with connectors
152123	150cm Corrugated tube, single tube with connectors
152224	180cm Extendable tube, single tube with connectors
152321	80cm Smoothbore tube, single tube with connectors
152322	120cm Smoothbore tube, single tube with connectors
152323	150cm Smoothbore tube, single tube with connectors

Pediatric 15mm Single Tubing

Item Code	Product Description
152111	80cm Corrugated tube, single tube with connectors
152112	120cm Corrugated tube, single tube with connectors
152113	150cm Corrugated tube, single tube with connectors
152214	180cm Extendable tube, single tube with connectors
152311	80cm Smoothbore tube, single tube with connectors
152312	120cm Smoothbore tube, single tube with connectors
152313	150cm Smoothbore tube, single tube with connectors

Reservoir Bag (Latex Free)

- Available in four sizes
- Latex Free

Item Code	Product Description	Spec.
158120	Reservoir bag (15mm connector)	0.5 Liter
158150	Reservoir bag (22mm connector)	0.5 Liter
158121	Reservoir bag (15mm connector)	1 Liter
158151	Reservoir bag (22mm connector)	1 Liter
158152	Reservoir bag (22mm connector)	2 Liter
158153	Reservoir bag (22mm connector)	3 Liter

Nasal Aspirator

- Gently and quickly clears the congestion

Item Code	Product Description
901001	Nasal aspirator

Filter

- For use within Anesthesia, Respiratory and Critical Care clinical areas

Item Code	Product Description
153101	BV (Bacterial Viral Filter)

Filter

- For use within Anesthesia, Respiratory and Critical Care clinical areas
- Provide high humidification with bacterial/viral filtration

Item Code	Product Description
153203	HMEF, size adult

Neonatal Resuscitation Circuit

Item Code	Product Description
151601	10mm Neonatal Resuscitation Circute Pink, 1.0 M, Length
151602	10mm Neonatal Resuscitation Circute Pink, 1.5 M, Length
151603	10 mm, 1.8m Corrugated Tube*4 (1.2m+0.6m)+water trap*2 need to create the new Y connector

Water Trap

Item Code	Product Description
156202	150D / 150D
156203	190D / 190D
156204	220D / 220D

Adult Coaxial System

Item Code	Product Description
151401	Adult Coasial System with 0.6m collapsible limb,1.5 length
151402	Adult Coasial System with 0.6m collapsible limb,2.0 length
151403	Adult Coasial System with 0.6m collapsible limb,3.0 length
151404	Adult Coasial System with 0.6m collapsible limb,1.5 length , 3.0 L Reservoir bag, Cushion mask without valve #5,BV filter adult *1

Smoothbore Tube

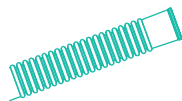

· Materials of PVC/TPE are available

Item Code	Product Description
151801	15mm Smoothbore Tube, 0.8M Length
151802	15mm Smoothbore Tube, 1.6M Length
151901	22mm Smoothbore Tube, 0.8M Length
151902	22mm Smoothbore Tube, 1.6M Length

Catheter mounts

Item Code	Product Description
151701	22mm Corrugated Tube with 22M/15F Connector
151702	22mm Corrugated Tube with Swivel Elbow
151703	15mm Corrugated Tube with Swivel Elbow
151704	22mm Collapsible Tube with 22M/15F Connector
151705	22mm Collapsible Tube with Swivel Elbow
151706	15mm Collapsible Tube with Swivel Elbow

Corrugated Tube

Item Code	Product Description
152101	15mm Corrugated Tube, cuffed at 0.15M, total 30M Length
152102	22mm Corrugated Tube, cuffed at 0.15M, total 30M Length

Memo

Y Connector

Item Code	Product Description
157201	22OD/15ID; 22OD with cuffs

Item Code	Product Description
157202	22OD/15ID; 22OD with one cuff

Straight Connector

Item Code	Product Description
157101	22OD/15ID; 22OD/15ID (PC)

Item Code	Product Description
157102	22ID/ 15OD

Item Code	Product Description
157203	22OD/15ID; 22OD without cuff

Item Code	Product Description
157204	22OD/15ID; 15OD with cuffs

Item Code	Product Description
157103	22ID; 22OD

Item Code	Product Description
157104	22OD

Item Code	Product Description
157205	22OD/15ID; 22OD without cuff, with temperature port

Item Code	Product Description
157105	18ID

Item Code	Product Description
157106	19OD;60OD

Straight Connector

Item Code	Product Description
157107	18ID; 19OD

Item Code	Product Description
157108	22ID; 60OD

Item Code	Product Description
157113	22ID/30OD (PC)

Item Code	Product Description
157114	22ID;22OD with one way valve, flow direction to 22ID

Item Code	Product Description
157109	22OD; 22OD/ 15ID (with exhalation port)

Item Code	Product Description
157110	15OD; 15OD (PC)

Item Code	Product Description
157115	22ID; 22OD with one way valve, flow direction to 22ID

Item Code	Product Description
157116	22ID;22OD without one way valve

Item Code	Product Description
157111	22OD/15ID; 22OD (PP)

Item Code	Product Description
157112	22ID/22ID (PC)

L Connector

Item Code	Product Description
157301	22OD/ 15ID; 15OD (w/o Safety Cap)

Item Code	Product Description
157302	22OD/15ID; 15OD (w/Safety Cap)

Future Perspective

EXIN particularly gathers the experienced R&D team and professional staff on medical field, through generating the innovation continuously, emphasizing on patient's need, enhancing the comfort and fit of our products, moreover, caring about the environmental protection, we do our best to keep the balance on all of these.

To keep the promise to our customers, EXIN input the certain amount of effort and capital on our R&D department, except to optimize the function of products, also pay high attention on application and human factors engineering. We are not just selling the products simply, but also providing the safe and good environment to end users.

To stay focusing on the global trend, EXIN try to lay the foundation more stable as we can, especially on respiratory and anesthesia fields. We fully engaged in the preparation before the beginning stage of EXIN, and expect to be the leading specialized company on respiratory and anesthesia fields in Asia area within next 10 years. In the following, we will enhance the supply chain management, and be the good partner to our customers.

EXIN, will be your best choice now and future.
